

NEW SPACE IGNITOR - INCUBATOR PROGRAM

GROW FASTER - FROM CONCEPT TO PRODUCT TO SALES

Space companies can apply to NewSpace Ignitor and move from concept to product to sales faster with services that focus on accelerating prototype development and navigating companies to specialized resources and customer contracts. NewSpace Ignitor services include:

- **Assessing company readiness levels and exploring how to elevate them.** Tech-to-market business services include needs/readiness assessments, TR-elevator® (Tech Readiness Elevator), market analysis, strategic planning, scaling curriculum and pitch support.
- **Providing tailored navigation plans** that guide companies to needed resources across the new space ecosystem, including connections to workforce.
- **Accelerating product development** with access to shared facilities, labs and equipment at co-innovation workspaces and partner locations.
- **Showcasing company products** to investors and buyers to fast-track funding and sales.

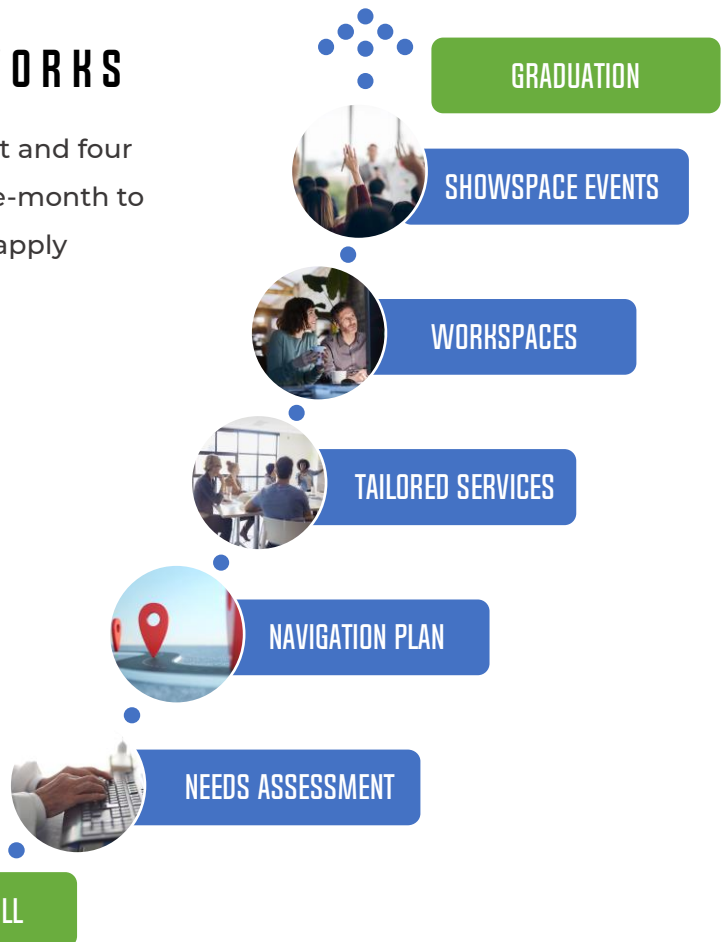

RECEIVE END-TO-END SUPPORT - TAILORED TO YOUR NEEDS

HOW THE SELECTION PROCESS WORKS

Ten companies will be accepted into the Phase I cohort and four finalists will be selected to participate in Phase II. Three-month to one-year cohort options are available. Companies can apply throughout the year.

WHAT YOU GET

- **Phase I Cohort Companies** receive pitch feedback, market analysis, use of co-innovation workspaces and connector services
- **Phase II Cohort Companies** receive all NewSpace Ignitor services from concept to product to sales. Services are tailored to each company's specific needs.
- **All applicants** are eligible for free membership to join the NewSpace Alliance at no cost.

Connect with us and join a cohort today!
